Career Objective

Passionate and dedicated Flutter Developer with hands-on experience in building cross-platform mobile applications using Flutter and Dart. Skilled in state management, API integration, and UI/UX design, with a focus on delivering high-quality, scalable, and visually appealing mobile experiences.

Professional Experience

Software Engineer

BETOPIA GROUP

Dhaka, Bangladesh

Jan 2025 – Present

- Developed and maintained Flutter applications with efficient API integration and state management.
- Collaborated with UI/UX designers to build responsive, cross-platform mobile solutions.
- Contributed to optimizing app performance and code reusability using best Flutter practices.

Software Engineer

SOFTWARE ARENA LTD

Dhaka, Bangladesh

June 2024 – Dec 2024

- Assisted in developing ERP and association apps to optimize workflow and user engagement.
- Worked with RESTful APIs, Firebase, and Flutter widgets to ensure efficient data handling.
- Collaborated with team members to design and implement scalable app components.

Technical Skills

• Frameworks:

Flutter

• Languages:

Dart, Python, Java, JavaScript, C, C++

• Data Tools:

Firebase, RESTful APIs, SharedPreferences, Cloud Firestore

• Version Control:

Git, GitHub

• Operating Systems:

Windows, Ubuntu

• Soft Skills:

Teamwork, Project Coordination, Mentorship

• UI/UX:

Material Design, Responsive Layouts

• Tools:

VS Code, Android Studio, Postman

Projects

- **InPrep AI** — AI-powered interview preparation platform built with Flutter, Python, TensorFlow, and OpenCV. Features facial emotion recognition, confidence analysis, real-time feedback, and personalized interview coaching to improve candidate performance. [Play Store Link](#)
- **Unfall-Update** — Cross-platform accident claim management application for German users. Implemented OTP authentication, role-based access control (Drivers, Lawyers, Admins), document uploads, case tracking, dashboards, and secure data management. [Play Store Link](#) [App Store Link](#)
- **Sippd.Coffee** — Social coffee discovery platform allowing users to explore cafés, log visits, share experiences, rate coffee shops, and engage with a community of coffee enthusiasts. [Play Store Link](#) [App Store Link](#)
- **theSliceUp** — Personal finance management application enabling users to track income, expenses, budgets, savings goals, and spending analytics through an intuitive dashboard. [App Store Link](#)
- **Biovue** — AI-assisted fitness tracking application that analyzes user health metrics and activity data to provide personalized workout recommendations and progress insights.
- **Fairplay** — Sports management platform for tracking players, teams, matches, statistics, rankings, and performance analytics with real-time data visualization.
- **FitFlex** — Fitness and workout tracking application featuring exercise plans, progress monitoring, goal setting, and performance analytics for improved user engagement.
- **E-commerce App Admin Panel** — Full-featured e-commerce solution with product catalog management, shopping cart, order processing, payment integration, user authentication, and admin dashboard.
- **Weather App** — Real-time weather forecasting application integrated with external APIs, providing location-based weather updates, forecasts, and dynamic weather visualizations.
- **User Data Collection App** — Secure Flutter application for collecting, managing, and storing user information with local storage support, form validation, and data synchronization capabilities.

Education

BSc in Computer Science and Engineering 2019 – 2024
Gopalganj Science and Technology University (GSTU)
Gopalganj, Bangladesh

HSC in Science 2018
Birshreshtha Munshi Abdur Rouf Public College
Dhaka, Bangladesh

SSC in Science 2016
Birshreshtha Munshi Abdur Rouf Public College
Dhaka, Bangladesh
